**MACKEREL VERY WILD.**

**But Big Body Is Reported North of Cultivator Shoal.**

**Ten Vessels Made Hauls on Monday and Salted.**

According to all reports there is a big body of mackerel to the northward of the Cultivator shoal, but the fish are very wild and exceedingly hard to catch. They did not show on Sunday, which was a very fine day, but on Monday which was rather blowy and poor fish weather, they came up boiling but were so wild that it was almost impossible to stop them. There were 17 sail of seiners there, but only a few made hauls.

As reported exclusively in the TIMES yesterday, schs. Veda M. McKown and Annie M. Parker ran to market with their catches, while sch. Constellation salted a catch of 170 barrels. In addition to these, sch. Vera got two schools and salted and sch. Avalon did likewise, her catch being about 100 barrels. Schs. Norma and Lucania also got schools and salted, the latter's haul being about 70 wash barrels.

The tinkers brought in yesterday by sch. Annie M. Parker were mixed in with the big fish, which by the way were extra large. Even the tinkers were of large size and would go about 300 count to a salted barrel. They sold fresh at six cents each.

The fare of salt tinkers of sch. Arthur James sold to Davis Bros. at \$15 per barrel.

**Advocated by Senator Lodge at Essex Club Dinner.**

**Politicians Gather in Good Numbers at Club Dinner.**

A good representation of Essex county republicans congregated at the Peabody town hall yesterday and listened to the addresses from national and state republican leaders.

Senator Henry Cabot Lodge made the principal speech, which was received with prolonged cheering. A part of his address is of interest to local readers and was in regard to ship subsidies and bounties for American fishermen, and he said in part:

"The subsidies that we proposed by the bill are limited to \$2,000,000 a year, and the ocean mail service now earns net to the government \$2,000,000 a year. Our proposition is that the

\$2,000,000 profit which the ocean mail service now yields to the government can be well disposed of in encouraging American capital and

American seamen to undertake the construction of new lines in new directions.

"The other proposition is to give a bounty of so much per ton to American vessels not engaged in carrying mails, but engaged in the foreign merchant service, and including fishermen. That bounty is given on condition that they shall carry a certain number of American seamen among their crews, and that they shall also form a portion of the naval reserve, so that we get the service in return."

Other addresses were made by the various candidates for lieutenant governor, Hon. Eben S. Draper, Hon. Fred S. Hall and Col. Albert H. Goetting. The candidates for attorney

**NEWFOUNDLAND FISHERIES.**

**Sch. Grampus Investigating Conditions on Western Coast.**

**Official May Be As Possible Mediator.**

A Washington, D. C., dispatch of Saturday says that: "A. B. Alexander, chief of the department of statistics and methods of the bureau of fisheries of the department of commerce and labor, is spending the fishing season in the Grampus, the boat attached to the bureau, investigating conditions of fishing off the coast of Newfoundland principally with regard to the rights of American fishermen in those waters. It is admitted at the state department that he is acting in a dual capacity, as an investigator of facts and a possible mediator."

**GOOD CODFISH CATCH.**

**Is Reported to Have Been Made on Pacific Coast.**

The schooner Lizzie Colby, the first of the fleet to arrive at Anacortes, Washington, from Behring Strait with a full cargo, brings news of a good catch of codfish. The schooner Alice is expected to arrive soon with a large cargo for the Robinson Fisheries Company, now fully equipped with a new plant provided with every facility. The Alice will soon be followed by another schooner for the same company, and this concern will give continuous employment to about 40 women besides a large force of men during the year. The Robinson Fisheries Company, W. F. Robinson, manager, was the first firm to put up codfish at Anacortes in attractive style. Thirteen different varieties of codfish are put up by this concern, and the product is shipped over the entire country. The bones and skins are used in making oil, glue and fertilizer. — Fishing Gazette.

general all had fun with each other, and then in a serious vein urged the club members to roll up a big republican vote this fall. Congressman John W. Weeks of Newton spoke on the subject of railroad legislation. Mr. Weeks is well known to local people, as when there was a branch of the naval brigade here he was lieutenant commander of the entire state brigade.

The dinner was furnished by Schlehuber of Lynn.

Gen. Francis Appleton presided and Postmaster Charles D. Brown served on the executive committee.

Among those present from this city were Collector William H. Jordan, Postmaster Charles D. Brown, chairman of the republican city committee, Charles H. M. Hazel, secretary of the republican city committee, Arthur E. Rowe, Clarence E. Richardson, Wilmet A. Reed, John J. Lowrie, W. W.

Luthi, Arthur D. Story, Frank E. Raymond, James M. Callahan of Essex and Oliver F. Kilham of Beverly.

Senator Moody Kimball was around all day with "the smile that won't come off," after hearing the news of County Commissioner Sawyer's withdrawal from the contest for the office of county commissioner.

A new member was added to the club roll in the person of Ralph W. Dennen of this city.

**FANCY PRICE.**

**Salt Mackerel Brought \$25 Per Barrel Yesterday.**

**Fare of Sch. Kentucky Bought by George Perkins & Son.**

Large salt mackerel brought a fancy price yesterday afternoon. The schooner Kentucky came in from Georges with 38 barrels of large salt fish and four barrels of salt tinkers. The fare sold quickly to George Perkins & Son at the fancy price of \$25 per barrel for the large fish, the tinkers bringing \$15 per barrel.

This is an advance of \$2.50 per barrel over last sales, and is not only the highest price paid of the season, but one of the highest prices paid for salt mackerel for several years.

**LOTS OF SHACK.**

**T Wharf Glutted and Many Big Fares Brought Here.**

T wharf had a regular glut of fresh fish yesterday and fish went begging. In consequence there are 14 trips at this port today, all for the splitters.

Among the fleet was the new sch. Thomas S. Gorton, Capt. William H. Thomas, from her maiden trip with a fine fare. Capt. Thomas and his crew like the new craft very much.

**Good Rips Trip.**

Sch. Sheffeyld, which arrived today from the Rips only ten days out after getting her bait has a fine fare, 40,000 pounds of salt cod. Sch. Norman Fisher, another of the salt Rips fleet, is also in this morning, with another dandy trip, 50,000 pounds of salt cod. These vessels both struck fine fishing on the Rips.

**WITH FLAG AT HALF MAST.**

**Sch. Gladstone of Provincetown at This Port this Morning.**

The Provincetown salt banker Gladstone arrived here this morning with 100,000 pounds of salt cod. Her flag is at half mast for the loss of two of her crew, who were drowned by the capsizing of the dory in which they were going ashore at a Cape Breton port, as previously reported in the TIMES.

### Mackerel Notes.

A letter to the TIMES from Port Mulgrave says:

"The mackerel news is not very encouraging. We had two schooners to the Bay hook-

log, but they have done nothing. One of them has returned. The two seiners have cruised all over the old fish grounds but there are no prospects."

The seiners referred to are supposed to be schs. Priscilla Smith and S. F. Maker of this port.

### ANOTHER FLITCHER HOME.

#### Sch. Admiral Dewey Arrives with a Small Fare.

Sch. Admiral Dewey, Capt. James Hayes, arrived this morning from Bacalien Bank, having been on a flitched halibut trip, with a small fare, 60,000 pounds of flitches. Capt. Hayes confirms the reports of Capt. Peterson of sch. Corona and Capt. McCoysh of sch. Arkona in regard to the great amount of ice and the fleet being greatly bothered thereby all the season in its fishing operations. The Dewey is the second of the flitching fleet to arrive.
